### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the claims are allowable over prior art of record Kawachi et al. (4,978,188) because the applicant amended claims 1 and 8 include the limitation of applying power equal to or above a predetermined power level to at least one electrode to heat a region of the waveguide for causing an irreversible birefringence change of the waveguide. Kawachi et al. does not disclose applying heat directly to the waveguide to cause an irreversible birefringence change of the waveguide. In contrast, Kawachi requires the use of a stress applying film to exert a stress on the waveguide to irreversibly change the stress by trimming the film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
